live." Take this, Colonel Hubard, as your richest reward for another contribution you have made to South ern history

From this flow of soul and feast of reason the veterans repaired to the Armory, where together they sat at the feast spread for them by the "Daughters of the Confederacy," a Southside Virginia feast, prepared Headaches and Nervousness a Specialty. by Southside Virginia matrons, and Glasses properly litted-Prices reasonable, served by Southside Virginia maid-"Fit for the Gods?" Yes indeed, and better still fit for heroes as chilvalrous, as courageous, as patient, as patroitic as ever wore a plume, waved a sword, leveled a gun, charged a breast work, met the fierce shock of battle, or rallied round any flag.

While they are memories were busy with by-gone, and could we gather here the stories told, the jokes repeated, experiences recalled it would make a volume of more of interest than ever came from pen of poet or writer of romance. But though not written on paper they live in human hearts and will never die.

Miss Elizabeth Richardson, daughter fair, welcomed the old "boys" in words of love and tenderness, and the Normal Glee Club sang into the depths of their souls and the melo-

Bright, beautiful, bounteous day in Farmville's history, and for its pteasures and privileges we are indebted to the unselfish love and labor of the Daughters of the Confederacy, of whom Mrs. H. W. Edmunds is president.

BRAKES ON BATTLESHIP.

Steel Wings on Indiana Open to Check Speed.

WON'T ADOPT SHIP BRAKES

Naval Board Finds It Increases Danger

From Torpedo Attack. Although it has been demonstrated by practical trials that were made on the battleship Indiana that what is known as the "ship brake," will undoubtedly stop a vessel in somewhat less time than were it not employed, the device has been found unsuitable for naval usage.

· The naval board which conducted the test holds that the brake, which resembles a barn door on either side of the ship, would soon become clogged with barnacles unless constantly employed. It would also increase the danger from torpedo attack; would be a grave menace in close evolutions and would retard the speed of the ship.
